## Scope of Work

A typical recruitment and selection process takes approximately 175 hours to conduct. At least 50 hours of this time is administrative, including advertisement placement, reference interviews, and due diligence on candidates. We believe our experience and ability to professionally administer your recruitment will provide you with a diverse pool of highly qualified candidates for your City Administrator search. GovHR clients are informed of the progress of a recruitment throughout the entire process. We are always available by mobile phone or email should you have a question or need information about the recruitment.

GovHR suggests the following approach to your recruitment, subject to your requests for modification:

### Phase I – Position Assessment, Position Announcement and Brochure Development

Phase I will include the following steps:

- One-on-one or group interviews will be conducted with elected officials, appointed officials, staff, business community representatives and any other stakeholders identified by the client to develop our Recruitment Brochure. The Proposal assumes up to two full days and one night depending upon the client's needs. We can also utilize dedicated email and surveys to obtain feedback from stakeholder groups. Previous clients have invited community leaders to meetings with our consultants; other clients have developed surveys for the community or organization; and some clients request we use a combination of these methods to fully understand community and organizational needs and expectations for the next City Administrator. We will work closely with you on the format that best meets your needs.
- Development of a **Position Announcement**.
- Development of a detailed **Recruitment Brochure** for your review and approval.
- Agreement on a detailed **Recruitment Timetable** – a typical recruitment takes 90 days from the time you sign the contract until you are ready to appoint the finalist candidate.

## Phase II – Advertising, Candidate Recruitment and Outreach

We make extensive use of social media as well as traditional outreach methods to ensure a diverse and highly qualified pool of candidates. In addition, our website is well known in the local government industry – we typically have 5,000 visits to our website each month. Finally, we develop a database customized to your recruitment and can do an email blast to thousands of potential candidates.

Phase II will include the following steps:

- Placement of the Position Announcement in appropriate professional online publications. In addition to public sector publications and websites, outreach will include LinkedIn and other private sector resources. We can provide the City with a list of where we intend to place the position announcement, if requested.
- The development of a database of potential candidates from across the country unique to the position and to the City, focusing on the leadership and management skills identified in Phase I as well as size of organization, and experience in addressing challenges and opportunities also outlined in Phase I. This database can range from several hundred to thousands of names depending on the parameters established for the outreach. Outreach will be done in person, and through e-mail and telephone contacts. GovHR consultants have extensive knowledge of the municipal government industry and will personally identify and contact potential candidates. With more than 600 collective years of municipal and consulting experience among our consultants, we often have inside knowledge about candidates.

## Phase III – Candidate Evaluation and Screening

Phase III will include the following steps:

- Review and evaluation of candidates' credentials considering the criteria outlined in the Recruitment Brochure.  
  
Candidates will be interviewed by skype or facetime to fully grasp their qualifications, experience and interpersonal skills. The interviews include asking specific questions about their experiences and skill sets as well as asking questions specific to the City Administrator. We will ask follow up questions and probe specific areas. By utilizing skype or facetime we will have an assessment of their verbal skills and their level of energy for and interest in the position.
- Formal and informal references and an internet/social media search of each candidate will be conducted to further verify candidates' abilities, work ethic, management and leadership skills, analytical skills, interpersonal skills, ability to interact with the media, and any areas identified for improvement.
- All résumés will be acknowledged and contacts and inquiries from candidates will be personally handled by GovHR, ensuring that the City's process is professional and well regarded by all who participate.

## Phase IV – Presentation of Recommended Candidates

Phase IV will include the following steps:

- GovHR will prepare a Recruitment Report that presents the credentials of those candidates most qualified for the position. You will advise us of the number of reports you will need for the individuals involved in this phase of the recruitment and selection process. We provide a binder which contains

the candidate's cover letter and résumé. In addition, we prepare a "mini" résumé for each candidate, so that each candidate's credentials are presented in a uniform way. GovHR will provide you with a log of all candidates who applied. You may also review all the résumés, if requested.

- GovHR will meet with you on-site to review the Recruitment Report and expand upon the information provided. The report will arrive two to three days in advance of the meeting, giving you the opportunity to fully review it. In addition to the written report, we will spend 2 to 3 hours discussing the candidates by reviewing their skype interviews and providing excerpts from the references we will have conducted on the individuals.

### **Phase V –Interviewing Process**

Phase V will include the following steps:

- After the Recruitment Report is presented, the Interviewing Process will be finalized including the discussion of any specific components you deem appropriate, such as a writing sample or oral presentation.
- GovHR will develop the first and second round interview questions for your review and comment. GovHR will provide you with interview books that include the credentials each candidate submits, a set of questions with room for interviewers to make notes, and evaluation sheets to assist interviewers in assessing the candidate's skills and abilities.
- GovHR will work with you to develop an interview schedule for the candidates, coordinating travel and accommodations. In addition to a structured interview with the City, the schedule will incorporate a tour of Wildwood's facilities and interviews with senior staff, if the City so desires.
- Once candidates for interview are selected, additional references will be contacted, along with verification of educational credentials, criminal court, credit, and motor vehicle and records checks.
- GovHR recommends a two-step interviewing process with (typically) five or six candidates interviewed in the first round. Following this round, we strongly suggest that two or three candidates are selected for second round interviews. Again, we will prepare a second round of interview questions and an evaluation sheet.
- GovHR consultants will be present for all the interviews, serving as a resource and facilitator.

### **Phase VI – Appointment of Candidate**

- GovHR will assist you as much as you request with the salary and benefit negotiations and drafting of an employment agreement, if appropriate.
- GovHR will notify all applicants of the final appointment, providing professional background information on the successful candidate.

### **Citizen Involvement in the Recruitment Process**

GovHR has entered into an exclusive strategic partnership with Polco. Polco provides the tools for municipalities to collect citizens' views. Community responses are validated using the local voter database to verify the responses. Civic engagement is enhanced by using websites, widgets, and apps to meet the citizens where they are. Citizens become more active and informed participants in the process by voicing their views to municipal leaders and other citizens. Polco makes voicing opinions accessible, easy and convenient. It is an excellent tool that can be used to solicit input during the recruitment process and can

be used in the future for a wide variety of purposes related to civic engagement. This is an optional service. Pricing available upon request.

### Leadership/Personality Assessments

GovHR has experience working with a wide variety of leadership and personality assessment tools, depending on the qualities and experiences the client is seeking in their candidates. These include but are not limited to Luminaspark, Caliper, DISC and others. Typically these tools cost \$300 per candidate to administer. This fee is not included in our proposal.

### Optional 360° Evaluation

As a service to the City, we offer the option to provide you with a proposal for a 360° performance evaluation for the appointed Administrator at about six months into his or her employment. This evaluation will include seeking feedback from both Elected Officials and Department Directors, along with any other constituent the City feels would be relevant and beneficial. This input will be obtained on a confidential basis with comments known only to the consultant. If you are interested in this option, GovHR USA will prepare a proposal for this service.

### Recruitment Schedule

A detailed recruitment schedule will be provided in Phase I. The recruitment and selection process typically takes 90 days from the time the contract is signed until the candidate is appointed. We can work with you on a shorter process, should you so desire.

Our typical recruitment process includes the following milestones and deliverables:

\*\*This fee does not include travel and accommodations for candidates interviewed. Recruitment brochures are produced as electronic files. Printed brochures can be provided, if requested, for an additional cost of \$900.

The above cost proposal is predicated on four consultant visits to the City; the first for the recruitment brochure interview process (up to two full days and one night, depending upon the client's needs; if additional days are needed they will be billed at \$500 per half day and \$950 for a full day, plus additional hotel charges, if required); the second to present recommended candidates; and the third and fourth for the candidate interview process (second round interviews are often scheduled a week or so following the first round interviews). Any additional consultant visits requested by the City will be billed at \$125/hour; \$500 for a half day and \$950 for a full day. The additional visits may also result in an increase in the travel expenses and those expenses will be billed to the client.

Professional fees and expenses will be invoiced as follows:

## Philosophy

Executive search is an important decision-making process for an organization and our primary goal is to provide our client with the information to make the best hiring decision. Our firm's executive recruitment philosophy embraces a professional process of integrity, trust, and respect toward all parties involved, and complete commitment toward meeting the expressed needs and desires of our client. All of our services are handled by principals of the firm who have established and well-regarded reputations in the search field, as well as actual operating experience in the public management fields in which they now consult. Each has impeccable professional credentials and unblemished personal reputations. Keeping both our client and prospective candidates informed on the status of the recruitment on a regular basis is also an

important part of our recruitment process. Our work is carried out in an open manner with particular attention given toward seeking out critical factors of a client's organization and governance, and utilizing such information respectfully and discreetly in seeking out candidates who truly have the ability to meet the expectations and needs of the client—working strenuously in developing a fully qualified, “best match” candidate pool for client consideration. Our process includes assistance in the critical final interview and selection phases of the recruitment, and availability to both client and candidate for months following the appointment. Our process was developed and refined over the years to meet the special, and often unique, needs and circumstances facing our local government, public management, and related not-for-profit clients.

## **GovHR Guarantee**

It is the policy of GovHR to assist our clients until an acceptable candidate is appointed to the position. Therefore, no additional professional fee would be incurred should the City not make a selection from the initial group of recommended candidates and request additional candidates be developed for interview consideration. Additional reimbursable expenses may be incurred should the situation require consultant travel to Wildwood beyond the planned four visits.

Upon appointment of a candidate, GovHR provides the following guarantee: should the selected and appointed candidate, at the request of the City or the employee's own determination, leave the employ of the City within the first 24 months of appointment, we will, if desired, conduct one additional recruitment for the cost of expenses and announcements only, if requested to do so within six months of the employee's departure.

In addition, in accordance with the policy of our firm as well as established ethics in the executive search industry, we will not actively recruit the placed employees for a period of five years.

### COMMUNITY HISTORY AND BACKGROUND

Republic is located in Greene and Christian Counties in the southwest part of the state, and is closely located to Springfield in the heart of the Ozark hills. Little is known about the actual origin of how Republic got its name, yet it began as a typical crossroads station for travelers heading west in the early 1800s. The Battle of Wilson's

## City Administrator

---

Creek was fought three miles from Republic in 1861, and marked the beginning of the Civil War in Missouri. For nearly three years, Union and Confederate forces struggled for control of the State.

With the location of a rail station in nearby Brookline, and a station later in Republic, the area began to grow rapidly. In October of 1871, the Republic Post Office opened. The City soon included a school, flour mill, and other farm-related businesses. Its population was about 500 at the turn of the century, and Republic continued to grow as a farming and bedroom community during the 1900s. Today, Republic is a thriving community in an ideal location in terms of highways, rail system, and the Springfield-Branson Regional Airport.

Since 2000, Republic's population jumped from 8,438 to 14,751—a growth rate of more than 70%. The average age of the population is 32.2 years old. Republic is expected to continue a hearty pattern of growth over the next ten years or more.

Some of the growth Republic has experienced is due to the consolidation with the Village of Brookline. Brookline and Republic shared a close history because of their geographic proximity, railroad and highway development. Residents in both communities saw the benefit of joint development under the City of Republic, and in 2005 they voted to merge into a single community. As a result of the consolidation, Republic's land mass grew by nearly 50%.

The consolidation triggered a multi-million dollar extension of water and sewer into the former Brookline area, priming it for development, and this effort has proven to be very successful. Given the location's adjacency to Interstate 44, U.S. Highway 60, and Missouri State Highway MM, the area is prime land for commercial and industrial development, as well as continued residential growth. In 2012, McLane Co., an international grocery distribution firm, opened a first-of-its-kind distribution facility and warehouse in this area.

Several other companies, such as Carnahan-White Fence, Blue Line Equipment, Herrman Lumber, Murphy Tractor, Watson Metal Masters, Ashley Furniture, Red Monkey, Crossbreed and Schwans' regional headquarters have located their facilities in this area of Republic.

Republic is currently home to two platted business and industrial parks in the former Brookline area as well as several other commercial subdivisions in other prime locations.

In order to focus on future growth, Republic has renovated and upgraded the city's infrastructure and municipal facilities. The sanitary sewer facility was tripled in capacity in 2001. In 2006, a new well and water tower, and 17.5 miles of water and sewer mains were added at a cost of more than \$12 million.

Other improvements designed to accommodate Republic's growth include updated or new municipal facilities. In 2002, a 25,000 square foot facility for Police, Municipal Court, and Emergency Management was opened. Fire Station #1 was expanded in 2008, and during that same time a new 12,700 square foot Fire Station (#2) was built. Space needs, siting, and financial analyses for a new City Hall and Public Works facility are currently being examined.

### *CITY GOVERNMENT IN REPUBLIC*

The City of Republic is a first class chartered city under Missouri law. This designation permits Republic to exercise more control of its local government rather than the more limited authority granted by the Missouri State Statutes for fourth class cities. The City operates under a Mayor-City Council form of government. The City Council consists of eight members, two Council members from each of four wards. The Mayor and Council members serve two-year terms, with four Council members being elected each year.

The City employs a full-time professional City Administrator along with well-qualified Department Heads to manage the City's affairs and public services. The former City Administrator served the City for more than eight years, recently taking another City Administrator position in a larger Missouri community.

For FY 2016, the City employs approximately 125 full-time employees, and 200 seasonal employees. The City Administrator oversees an \$18.9 million budget. The City has an A bond rating.

The City Administrator is the chief administrative officer of the City and is responsible to the Mayor and Council. The City Administrator is responsible for the execution of all City ordinances and policies of the City Council by means of the direct supervision of all Department Heads and, indirectly, all City employees. Major areas of operation include:

**Police** – The Department consists of three divisions: criminal investigations, records, and patrol & auxiliary. The Department's mission, in part, says it "exists to serve all people within our jurisdiction with respect, fairness, and compassion. We are committed to the prevention of crime; protection of life and property; the preservation of peace, order, and safety; the enforcement of laws and ordinances; and the safeguarding of constitutional guarantees."

**Fire** – Provides a wide range of services including fire suppression and investigation, motor vehicle accident response, medical emergencies, hazardous incident emergencies, fire inspections, public education, and mutual and automatic aid with surrounding Fire Departments. The Fire Department operates two fully manned stations, which are staffed 24 hours a day. The Fire Department currently holds an ISO Rating of 2.

**Public Works** – Provides services in the areas of animal control, streets, wastewater, and water. Public Works Administration guides new infrastructure construction from design to completion and regulates activity in the

public right of way. The division also provides turn-key design and construction management services for the operational divisions.

Planning and Development – Focuses on improving neighborhoods, regulating land uses for orderly growth and development, code compliance and building inspection, increasing economic activity, and fostering new residential, commercial and industrial growth. In order to guide the significant growth and changes that are occurring in the community, the Planning & Development Department also handles transportation planning, corridor development planning, land use planning and site planning.

Administration – Provides general day-to-day oversight of city operations. This Department also houses the office of the City Clerk, City Attorney, Human Resources and Information Technology.

Finance – Provides for budgeting, budget execution, fiscal accountability, accounting, payroll functions, and oversees utility billing operations for the City.

Parks and Recreation – Provides leisure and recreational opportunities to residents by managing 148 acres of parks and several miles of trails, a community center, an outdoor aquatic center, a senior center, and a variety of recreational programming including basketball, volleyball, softball leagues and many other activities for all ages.

## CHALLENGES AND OPPORTUNITIES

The next City Administrator for Republic can expect to work closely with the Mayor, City Council and Department Heads on the following challenges and opportunities:

- The City of Republic is committed to sustainable commercial and economic development, and its strategic regional growth plan is yielding some of the fastest-improving economic statistics in the Midwest over the last decade. Republic ranks high in most every relevant indicator for Missouri businesses, including key indicators like demographics, labor and workforce, transportation, tax rates and incentives, industry and retail opportunities, and utility rates.

Republic directly benefits from Springfield's demographics, economic statistics, and workforce. Growth experts anticipate the City of Republic will continue to see significant growth in the next ten years.

Given the City's location and its adjacency to Interstate 44, U.S. Highway 60, and Missouri State Highway MM, the area is prime land for commercial and industrial development, as well as continued residential growth. The next City Administrator will work closely with City staff and the City's elected officials to continue the City's momentum in this area, while also assuring substantive work is done in the area of business retention.

At the same time, the next City Administrator should be adept at working with City leaders and staff in developing long-range plans to financially, organizationally and infra-structurally accommodate anticipated growth.

## City Administrator

---

- The City has made a significant investment in its Parks and Recreation system over the years. Evidence can be found in its active parks, an outdoor water recreation facility, the continued development of a trail system, and a 46,000 square foot Community Center, as well as a local parks sales tax. The next City Administrator can be expected to appreciate a community that considers parks and recreation a core municipal service.
- City officials and staff have identified a need to broaden the City's social media presence, and utilize more platforms for communicating with residents and the business community. Toward that end, some updates and technology enhancements to the City's e-outreach efforts are expected in 2016 including an updated City website. Yet, more improvements are desired. The next City Administrator should be comfortable with technology, for he/she can expect to work with City staff to evaluate the City's information technology processes and expenditures to determine if the City's needs are being met in the most cost effective and technologically advanced manner.
- Republic prides itself as a community on the go and welcoming to newcomers, one that is also proud of retaining its small-town values and friendliness in the midst of its rapid growth. As such, the next City Administrator should be comfortable having a visible role in a community undergoing transition, easily interacting with, and embracing, a diverse array of residents, individuals, businesses and organizations.
- The new City Administrator is encouraged to look at the municipal organization and over time, evaluate service delivery processes, procedures and methods, departmental organization, collaboration, and resource-sharing. The City Council is dedicated to progressive, innovative, continuous improvement and sees this recruitment as an opportunity for a fresh look at the organization.

At the same time, the next City Administrator joins a highly-regarded team of management professionals in the organization, some of whom are recent additions to the management team, while others are seasoned, long-tenured practitioners. In this same vein, rank-and-file employee retention needs attention, too, for some departments are experiencing more employee turnover than desired. All told, the next City Administrator will be challenged with refining and retaining a high-output, collegial organizational culture responsive to a participative leadership style.

- In the last ten years, the City has renovated, updated or built new public facilities in many of the departments. Looking ahead, the City has retained H Design Group LLC to conduct a feasibility study for a new City Hall and Public Works facility. Four sites are being studied, and a fiscal analysis is underway. The consultant's report is expected this Spring. The new City Administrator can expect to work with the City Council and staff to thoroughly examine the myriad of financial and land-use implications and decisions associated with the issue.
- The working relationship between the City and the Republic School District is strong, as both governmental bodies cooperatively traverse through growth-induced changes and challenges to the community's infrastructure, facilities, demographics and culture. The next area of progress the City Council

wants its new City Administrator to tackle includes developing stronger intergovernmental ties with county government, as well as the Republic Chamber of Commerce.
