### Monthly Accounting for Parks & Recreation ♦♦♦

Since 2016, the Department has provided a monthly accounting of both revenues and expenditures to this Committee. For the first two (2) years of this reporting, separate memorandums were issued with information on both expenditures and revenues. Beginning in 2018, at the request of the Committee, the Department combined these reports into a single representation. Detailed spreadsheets showing the accounting of each are still provided, and a summary page is also included.

### Revenues from Reservations/Registrations ♦♦♦

The first detailed spreadsheet provides an accounting of reservations for the City's three (3) rentable pavilions (Community, Anniversary, and Old Pond School Parks), enrollment associated with annual memberships for the Dog Park, and registrations for City events. Department staff would note the calculations of registrations are totaled for each event and listed during the month it was held, not necessarily when the reservations were made. Additionally, Dog Park Memberships are processed on a calendar year, so any renewals completed in December for the upcoming year, are only identified in January of the year the memberships are valid. The final item of note is the accounting provided is not necessarily net income for the City. Expenditures occur for each event, maintenance and upkeep within each park, and fees to partners, who assist the City in the execution of these activities. The fees collected are identified in total on the summary sheet and by program, park, or membership on the attached spreadsheet.

Annual revenues, since 2016, are identified in the table provided below:

2016 Annual Revenue -	\$31,989.00
2017 Annual Revenue -	\$45,425.00
2018 Annual Revenue -	\$53,480.00

### Expenditures from Parks/Trails Maintenance ♦♦♦

The summary of annual expenditures for the ongoing maintenance and upkeep of the City’s facilities, since 2006, is identified below:

### Current Allocations/Expenditures ♦♦♦

The Department, in calculating monthly expenditures, does so upon the date the work was completed, not necessarily the month in which the invoice was paid. Over the course of the past month, these expenditures include the following items:

- ✓ Trash removal
- ✓ Grass cutting
- ✓ Cleaning of parks with increased use

The revenues and spending for the current year, again on a per month basis of when the work was completed or the event was held, are provided below:
