As members are aware, the Historic Preservation Commission began, at the start of 2018, formulating a Work Program for each upcoming year. This 2018 effort was the first time the Commission Members undertook such a step and believed it to be appropriate, as a method to ensure its goals for each year would be monitored and eventually met. For 2022, the Historic Preservation Commission has continued this practice of defining its Work Program at the start of the new calendar year.

Prepared by the Department of Planning
